FIXING SYSTEMS AND FINISHES

• CANOPY 100

• HIDDEN INDIVIDUAL FIXING

System adapted to false ceilings for an aspect without a visible fixation (the rod comes out directly from the ceiling).

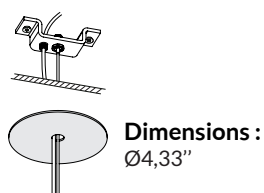

Recommendation : The minimal height between mounting support and false ceiling should be 3,9". Total height to be defined according to project.

• FALSE CEILING HOLE FINISHING

The hole in the false ceiling can be finished with an eyelet.

EYELET 110

Eyelet 110 is recommended for installation with an existing false ceiling. In this case, the height between the mounting support and the false ceiling must be less than 3,94".
