LIGHTING CONTROL SYSTEM

To be chosen according to project : DMX, DALI (DT8), TRIAC (phase dimming, setting knobs to choose the light temperature), 1-10V (two 1-10V bus required), NONE (setting knob to choose and fix the light intensity and temperature).

For a correct functioning the remote transformer / driver must be placed in an accessible place at maximum 33' from the light fixture.

Please contact us for any request of custom finish.
